

CS4500 Weekly Management Report

Team <6>

Team <Team Code Blue>

<09/02/2022>

Accomplishments

(Be specific – what was accomplished and who participated; bulletize response)

- Sam started making Wireframes for the desktop application in Figma
 - Still need to make sure they are reasonable to accomplish with Kivy
- Sam started reformatting the LaTeX of our previous design document (Attempting to make some of the flow charts and system architecture diagrams more readable) and incorporated some of the feedback from TCH about duplicate images.
 - Little bit better (Latex is weird sometimes)
- Alec Started to overviewing design option for out chrome extension

Goals & Priorities

(List short- and long-term goals in decreasing order of importance; state who is primary responsible and when due)

Long-Term

- Update the design document accordingly
 - Entire Team (September 9th)
- Create extensive Wireframes for UI/UX for both the Desktop application and Chrome extension part of the project
 - Sam, Max (September 9th, Hopefully so it can be included in the new design doc)
- Coordinate Feature and other field locks to avoid last minute scope changes
 - Entire Team (By Fall Break)
- Need to validate data being sent to database so we don't feed any junk datas to our model
 - Alec (by October 1st)

- User Guide
 - Sept 30th
- Design Document Update and Beta Demo
 - October 24th
- Final Design Document and Demo
 - December 2nd
- Final Demos
 - December 2nd-9th

Short-Term

- Get the design document completely formatted how we would like it in LaTeX before the start of next Friday (Sam)
- Get Wireframes created for Design doc and polishing goals when continuing on development(Sam and Max)
- Need to come up with better design for the chrome extension (Alec)
- Incorporate Bootstrap Library into the extension's CSS page, for element design and implementation from wireframes (Scott)

Needs

(List any help you need from upper management – specify whether TCH or sponsor)

- Question: What would be the difference from our draft Design Document and the finalized version near the end of the semester? Would it just be making sure it aligns with what we have completed at the end or does it also need to have an extensive polishing pass?
